

BUILD THE SKATEPARK.

A petition calling on the Town of Amherst to fund the first phase of an all-wheels recreational facility

WE, THE UNDERSIGNED, CALL ON THE TOWN OF AMHERST TO:

- 1.Allocate Community Preservation Act (CPA) funding for Phase 1 of the All-Wheels Amherst Skatepark project — a site study and design process estimated at \$20,000–\$40,000.
- 2.Commit to a transparent, community-inclusive site selection process that considers the Community Field / War Memorial Pool area as a candidate location.
- 3.Recognize that Amherst currently has zero dedicated facilities for skateboarding, BMX, scootering, and wheelchair motocross — activities enjoyed by thousands of Amherst residents.

WHY THIS MATTERS

- An all-wheels skatepark is a free public asset — like a playground or basketball court — that serves all ages and abilities.
- Amherst has an estimated 1,600+ skaters and BMX riders with zero dedicated facilities in town.
- Skateboarding is the 3rd least expensive youth sport, making it one of the most accessible options for all income levels.
- Research shows skateparks reduce street skating, improve safety, and become self-policing community hubs.

Privacy: Addresses are collected solely to verify Amherst residency and will never be shared publicly or used for any other purpose.
